

™ Simple Connected Powerful

MVR

Powered by the exclusive iMave Pro Platform, the MVR is our most advanced, premium-quality medical video recorder. With full-patient workflow capability, this advanced recorder is designed to benefit today's modern operating rooms and surgery centers.

Fully Featured and Flexible

With its compact size and premium features, the MVR is ideally designed for the OR. You can place the MVR in any optimal location and it offers a wide variety of control commands including API for OR integrators.

Full Patient Workflow

The MVR comes with full patient workflow, including a DICOM Upgrade Package¹ option, for easy and fast retrieval of patient information and transfer of studies to PACS.

Simple to Use

The way you control your MVR is up to you. You can simply use the MVR front-panel buttons or the remote trigger on the endoscope camera head. You could even connect a USB touch screen monitor or an Android tablet.

Medical Imaging Made Easy[™]

Unique Features

Browse and review patient files. Zoom in, take snapshots, cut video. Add notes, report in PDF, print and archive as you wish.

MVR Secure

Protect your files from hacking or power outages. Includes user authentication and historical logs for data protection.

Upgrade Package

Install MVR Upgrade Packages at any time by simply entering the activation codes provided by MediCapture.

DICOM¹

Easily retrieve patient **DICOM worklist and** store to your PACS.

4K Recording ^{1,5} **Records delicate** surgeries in stunning 4K (2160 p30/25).

Available as option: MTS101

MediCapture's 10.1" Multi-Touch plug & play Monitor is the perfect match to the MVR. It can be positioned in any optimal location and offers a larger user interface for entering patient data, editing videos and developing reports.
